

FIRE SPRINKLER TANK VALVES

Keraflo Ltd is delighted to introduce a range of Fire Sprinkler Tank Valves, thoroughly tested at BRE and certified to LPS 2083. Three **FB Type** models are available - 1", 2" and 3" fitted with ruggedised materials to comply with the exacting Standard, yet delivering the same trusted and reliable performance in-use that is the hallmark of Keraflo mechanical float valves.

LPS® 1276

3.5.3 Ball or Float Valve

A ball or float valve for maintaining the required level of water in the tank shall be installed. The valve shall be LPCB listed to LPS 2083 "The Requirements and Test Procedures for the LPCB Approval of Automatic Water Level Control Valves for use in Above Ground Suction Tanks for Sprinkler Systems"
